# WELCOME MESSAGE

Dear Colleagues,

We are delighted to announce the **VISAGE 2022** to take place in **Monte-Carlo, Monaco**.

Organized in association with the Institute of Face and Neck (Nice, France), VISAGE offers a unique model of a large scale European Academic event dedicated to teaching and training in aesthetic medicine of the face.

Under the direction of **Dr. Philippe Kestemont, Prof. Laurent Castillo, Dr. Henry Delmar, Dr. Charles Savoldelli, and Dr. Cécile Winter**, VISAGE introduces the latest and most efficient techniques in facial aesthetics through an extensive practical program & hands-on training.

VISAGE is a **postgraduate training program in aesthetic medicine** which combines workshops, anatomy laboratory sessions and hands-on tutorials in a clinical setting. An emphasis is put on practical knowledge and skills as well as sound knowledge of anatomy and physiology of the superficial structures of the face.

Our mission is to base all our teachings on evidence-based applications, safe practices and methodical guidelines to ensure an ethical and accurate representation of the aesthetic medical specialty.

Considering the current global health measures context, VISAGE provides you with 3 participation options: **In-person, Virtual** and **Combination**

Established under an **innovative learning and teaching format**, VISAGE will provide medical practitioners with maximum exposure to the scientific, clinical and industry information necessary to introduce non-invasive aesthetic procedures in their practice.

We look forward to welcoming you to VISAGE 2022.

Yours faithfully,

The Scientific and Organizing Committee

# WHAT IS “VISAGE”

**VISAGE** is a postgraduate training program on facial aesthetic medicine organised in association with the **Institute of Face and Neck.**

It is designed to provide the participant with a holistic learning experience that includes scientific theory, the study of anatomy and hands-on tutorials held in a clinical setting.

## WHO IS THIS PROGRAM FOR?

This program is intended for **fully licensed medical doctors and physicians in course of internship** who are seeking to elevate their aesthetic injecting abilities.

## WHY SHOULD YOU ATTEND?

Gain confidence as an injector and **get an official academic institute certificate endorsed by IUFC in anatomy and injection techniques applied to facial aesthetic medicine.**

Boost your clinical ability by gaining a deeper **understanding of the latest minimally invasive aesthetic techniques, facial anatomy and physiology of the superficial structures of the face.** This will enable you to ensure the safety of your patients and provide them with better results.

Everything you learn at VISAGE theoretical sessions will be put into practice. During the program, you will **receive individualised hands-on training and have the opportunity to inject a patient under the guidance of aesthetic specialists.**

## WHAT WILL THIS PROGRAM DO FOR YOU?

### THEORY

**Scientific teaching** focused on evidence-based applications, the latest research and best clinical practices.

### ANATOMY

Laboratory **training on facial anatomy** and physiology of the superficial structures of the face and neck.

### HANDS ON

Individualised **training of injecting techniques on a patient** under the guidance of an expert.

### EVALUATION

**Each participant will inject** will take a **theoretical test** and be evaluated on their **injection skill.**

### CERTIFICATE

This program is graded as a pass or fail, upon successful completion of the program you will **receive an academic institute certificate** endorsed by IUFC in anatomy and injection techniques applied to facial aesthetic medicine.
